

SEMAMS

Smart Energy Management and
Monitoring System

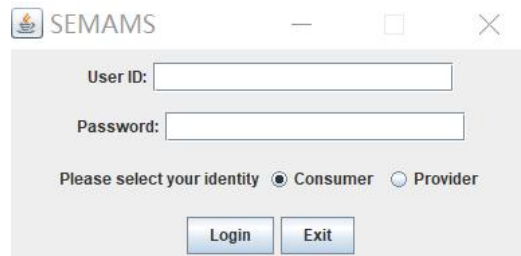

Group 74

Thanks for using this SEMAMS system!

Please follow the steps below carefully.

A) Select your identity

After you have run the code, you will see the login menu, you need to choose your identity (consumer or provider), and input your user ID and password in this system.

A screenshot of the SEMAMS login window. It has a title bar with the SEMAMS logo and standard window controls. The main area contains a 'User ID:' label with a text input field, a 'Password:' label with a password input field, and a section titled 'Please select your identity' with two radio buttons: 'Consumer' (selected) and 'Provider'. At the bottom are 'Login' and 'Exit' buttons.

1.1 Login

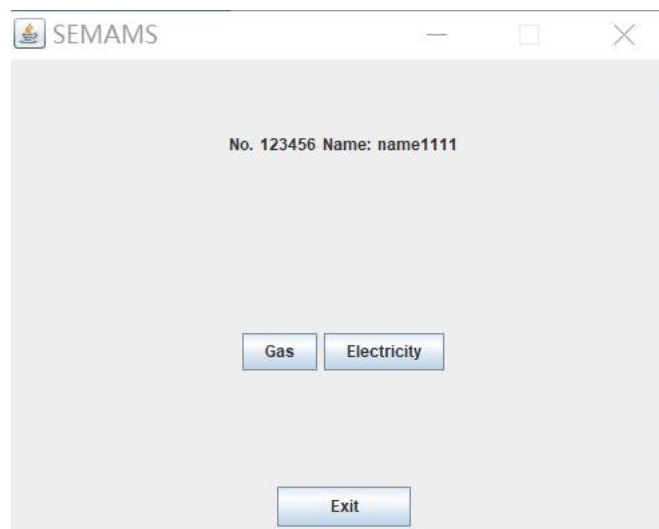

B) If you Login as “consumer”

You will see the notice window like that.

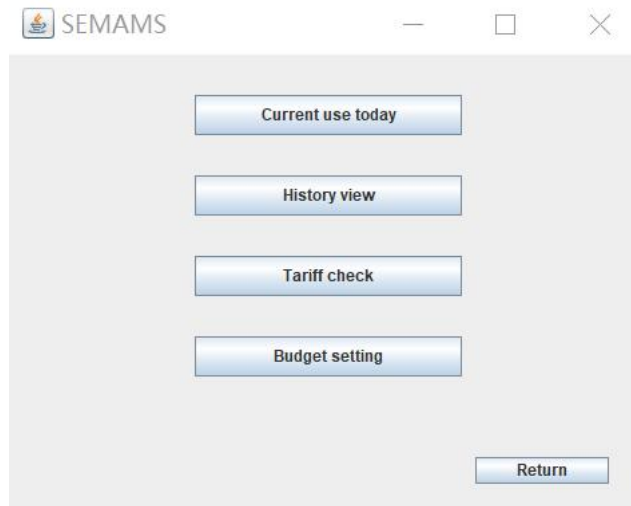

2.1 Notice Window

1)Then you choose to check information about Gas or Electricity.

A screenshot of the SEMAMS main menu window. The title bar shows the SEMAMS logo. The main area displays the text 'No. 123456 Name: name1111'. Below this, there are two buttons labeled 'Gas' and 'Electricity'. At the bottom center is an 'Exit' button.

2.2 Choosing “Gas” or “Electricity”

If you choose “Gas”, you can see the menu which has four function buttons, you can choose any one of them. If you choose “Electricity”, you will see the same interface.

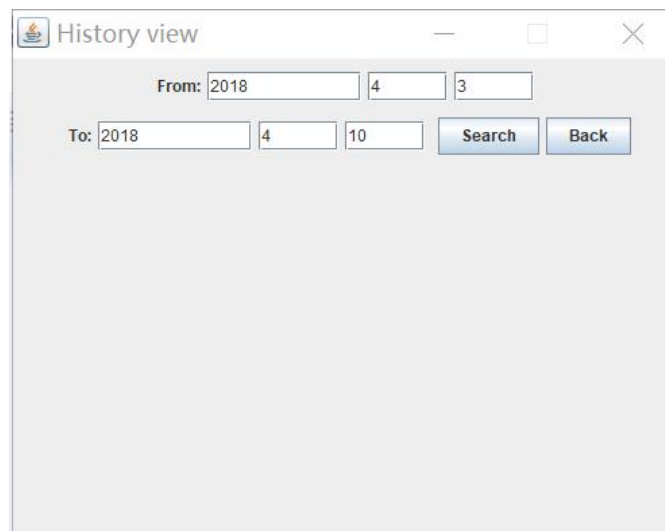

2.3 Function Menu of Consumer

2) If you choose “Current use today”, you will see the gas you have used until you check, and it is running all the time. If the amount of gas over the budget you have set, the blank of green will turn to red in order to remind you of over-used.

2.4 Current Use Today

3) If you choose “History view”, you can check the amount of using gas for any days. For example, if I want to check the usage from 2018.4.3 to 2018.4.10, you can input as follow.

History view

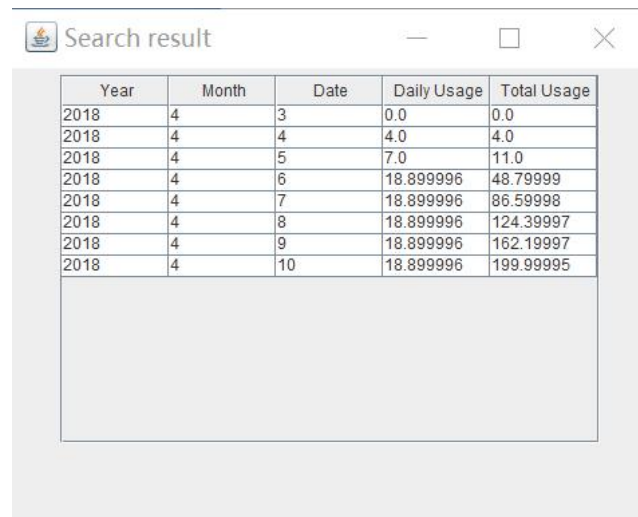

From: 2018 4 3

To: 2018 4 10

Search Back

2.5 History View

Then you can see the information of one day, and the total usage of all day you check. Of course, you can input only one day.

Search result

Year	Month	Date	Daily Usage	Total Usage
2018	4	3	0.0	0.0
2018	4	4	4.0	4.0
2018	4	5	7.0	11.0
2018	4	6	18.899996	48.79999
2018	4	7	18.899996	86.59998
2018	4	8	18.899996	124.39997
2018	4	9	18.899996	162.19997
2018	4	10	18.899996	199.99995

2.6 History List

SEMAMS

View bill

Back

3.10 Bill Management

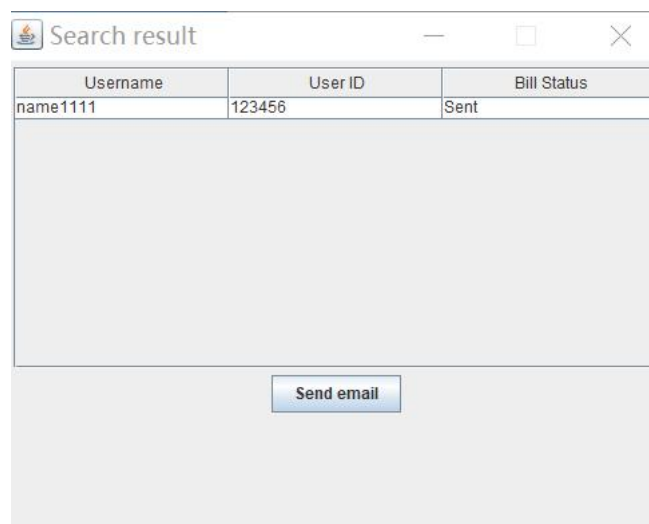

You have to enter the user ID you want to check, and then click “Search”.

The image shows a window titled "SEMAMS" with a standard Windows-style title bar (minimize, maximize, close buttons). Inside the window, there is a text prompt "Please enter the user ID you want to check:" followed by a text input field. Below the input field are two buttons: "Search" and "Back".

3.11 Input ID of Bill Management

You can see whether the bill of the consumer you check was sent. If the “Bill Status” is Unsent, you can click “Send email”.

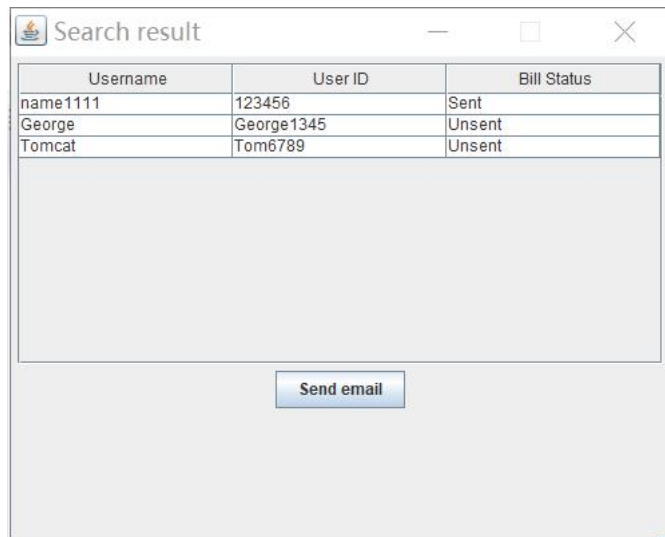

The image shows a window titled "Search result" with a standard Windows-style title bar. It contains a table with three columns: "Username", "User ID", and "Bill Status". The first row of data shows "name1111", "123456", and "Sent". Below the table is a large empty rectangular area, and at the bottom center is a button labeled "Send email".

Username	User ID	Bill Status
name1111	123456	Sent

3.12 Bill status of Consumer with specific ID

IF you don't input anything in picture 3.11, picture 3.12 will change to 3.13. You will see the Bill Status of all consumers.

The screenshot shows a window titled "Search result" with a standard Windows-style title bar (minimize, maximize, close buttons). Inside the window is a table with three columns: "Username", "User ID", and "Bill Status". The table contains three rows of data. Below the table is a large, empty rectangular area, and at the bottom center is a button labeled "Send email".

Username	User ID	Bill Status
name1111	123456	Sent
